Professional Summary

Results-driven Full Stack Developer with 15+ years of extensive experience in web development, specializing in UI/UX design, front-end and back-end development, and scalable application architecture. Adept at building high-performance, responsive, and cross-platform applications using modern web technologies. Strong expertise in JavaScript frameworks, UI frameworks, RESTful API development, cloud technologies, and Agile methodologies. Proven ability to lead teams, drive innovation, and deliver complex web solutions tailored to business needs.

Technical Expertise

- **Programming Languages:** HTML5, CSS3, JavaScript, TypeScript, PHP, ASP, JSP
- **Front-End Technologies:** ReactJS, Vue.js, Angular 2+, Angular Material, Bootstrap, jQuery
- **Back-End Technologies:** Node.js, Express.js, RESTful APIs
- **Databases:** MongoDB, MySQL
- **E-commerce Platforms:** WCS, Hybris
- **Version Control & CI/CD:** Git, SVN, TFS, Jenkins
- **Development & Collaboration Tools:** VS Code, Eclipse, Dreamweaver, JIRA, HP QC
- **Cloud & Hosting:** AWS
- **Methodologies:** Agile, Scrum, DevOps

Professional Experience

IBM (Nov 2014 – Present)

Role: Full Stack Developer (MERN)

Leading the development of scalable web applications for enterprise clients, ensuring high performance, security, and maintainability. Collaborating with cross-functional teams to design and implement innovative solutions that enhance business operations.

Key Responsibilities:

- Architect and develop full-stack applications using ReactJS, Node.js, Express.js, and MongoDB.
- Design responsive and user-friendly web interfaces with HTML5, CSS3, and JavaScript.
- Develop and integrate RESTful APIs to support seamless application functionality.
- Ensure code quality, scalability, and security through best practices and performance optimization.
- Lead UI/UX enhancements to improve customer experience and accessibility.
- Collaborate with product teams to define requirements and deliver business-driven solutions.
- Implement CI/CD pipelines for automated deployments and efficient development workflows.
- Conduct peer code reviews and provide mentorship to junior developers.

Mphasis (May 2013 – Nov 2014)

Role: Senior Web Developer
Worked on developing dynamic and responsive web applications, focusing on front-end frameworks and interactive visual components for various industries including financial services, telecom, and logistics.

Key Responsibilities:

- Developed robust, mobile-friendly web applications using HTML5, CSS3, JavaScript, and jQuery.
- Created data-driven visualizations using Highcharts and D3.js.
- Ensured cross-browser compatibility and optimized performance.
- Participated in Agile sprints to deliver high-quality, scalable web solutions.
- Resolved technical challenges and improved system efficiency.

rckr Software (Jan 2010 – May 2013)

Role: Web Developer
Contributed to the development of Web 2.0 applications, creating high-quality UI components and enhancing application usability for multiple clients.

Key Responsibilities:

- Developed and maintained UI components using HTML5, CSS3, JavaScript, and jQuery.
- Translated design mockups into pixel-perfect, responsive web pages.
- Designed and optimized email templates and marketing materials.
- Enhanced UI/UX experiences by implementing best design practices.
- Mentored junior developers and provided guidance on UI/UX improvements.

Addr.com Technologies (Nov 2008 – Jan 2010)

Role: UI Developer
Designed and optimized web applications for a US-based web development and hosting company, improving performance and maintainability.

Key Responsibilities:

- Developed structured, high-performance UI components using XHTML, CSS, JavaScript, and PHP.
- Optimized front-end performance by reducing HTTP requests and minimizing JavaScript execution.
- Created scalable, modular front-end structures to improve maintainability.
- Improved web application efficiency through performance tuning and best practices.

Educational Qualifications

- **MCA**, IGNOU – 2007
- **ADCA**, IGNOU – 2005
- **BCA**, IGNOU – 2004

Personal Details

- **Date of Birth:** 19th February 1984
- **Nationality:** Indian
- **Languages Known:** English, Hindi
- **Address:**
  #216, 2nd Floor, A Block, Venkatadri Palm Grooves, 2nd Main, Manjunath Nagar, Seegehalli, Bangalore, India - 560049
